DETAILED ACTION

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- a. Group I, claim(s) 1-3 and 7-8, drawn to a monoclonal antibody specifically reactive with a C-terminal partial peptide of the 19P2 ligand, and method of assay.
- b. Group II, claim(s) 4-8 drawn to drawn to a monoclonal antibody specifically reactive with an intermediate partial peptide of the 19P2 ligand, and method of assay.
- c. Group III, claim(s) 9, drawn to a hybridoma cell.

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The monoclonal antibody of group I and group II are different because they have different physical characteristics such as structure, sequence and binding characteristics.

The hybridoma of Group III differs from the monoclonal antibodies of groups I and II because they have different physical characteristics.

The inventions listed as Groups I, II and III do not have a single technical feature. Even though the monoclonal antibodies are recited as specifically binding to a partial peptide of the 19P2 ligand, this peptide is not, per se, a feature of the claimed inventions.

Art Unit: 1641

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
